-Your Vote Counts-

Friends-

On November 8th, we have an opportunity to invest in a stronger and better future for Jackson Hole by passing a **1% General Revenue Sales Tax.** If approved by the voters, $20-$24 million will be available for affordable housing in four years' time. That's 24 million reasons why the Jackson Hole Community Housing Trust is urging you to vote FOR the 1% General Revenue Sales Tax.

This measure will result in the development of new affordable housing opportunities. We are all fortunate to enjoy a tremendous quality of life in Jackson, a quality of life that is made possible by a skilled, stable workforce. Without people to care for our families, be available in an emergency, and provide essential services, we will lose the community that makes Jackson Hole home.

The 1% General Revenue Sales Tax is the last thing on your ballot. Don't forget to flip it over and vote all the way down.

For more information on the 1% General Revenue Sales Tax and to see who has endorsed this measure please visit www.cpcjh.org. If you would like to be added as a supporter, please let me know.
