

Fuels and Fleet 10x10 Action Team Plan Update:

**Goals:** *(Broad general intention, intangible, abstract, can't be validated as is.)*

1. To reduce fuel consumption in the Town and County by 10% by 2010

**Objectives:** *(Narrow, precise, tangible, concrete, and can be validated.)*

1. Adopt policies encouraging improvements to the overall energy use and impacts of the vehicle fleet.
2. Upgrade facilities to permit reduced idling, better maintenance, and alternative fuel usage.
3. Improve the way we do business to reduce miles traveled, while accomplishing the same job/task.
4. Improve the fuel efficiency of the current vehicles we use.
5. Replace the vehicles we use with more fuel-efficient vehicles.
6. Replace and/or reduce current fossil fuel use with non-fossil alternative fuels – biodiesel, ethanol, electricity, & hydrogen.
7. Consider fuel/energy savings when evaluating and adding levels of services offered to the community.
