

Energy Conservation Works Board

Type of Arrangement

Joint Powers Agreement with Joint Powers Board
A Joint Powers Board manages the affairs of an institution or program

Mission

The mission of Energy Conservation Works is to provide leadership, implementation, and education specific to energy conservation, sustainability and efficiency.

Goals

The goals of Energy Conservation Works, in order to secure and preserve economically feasible energy costs and to sustain/and or reverse the impacts of the built environment on the natural environment, are:

- To mitigate 30 megawatts (30%) of the electricity needed to meet Jackson Hole's future load growth over the next 20 years, in order to keep electricity rates low.
- To partner with and support the wide array of organizations working on reducing emissions from transportation through reducing fossil fuel use.
- To share the message of the importance of energy efficiency and conservation of our special resources and environment.

Board Purpose / Responsibilities

Make Teton County and the Town of Jackson leaders in energy efficiency, energy innovation, local energy generation and use of alternative fuels for transportation and to transform the community into a model for economic sustainability, energy cost savings and energy conservation.

Enabling Authority

Teton County & Town of Jackson
Formation Embodied in: Written Agreement
