

**Board of County Commissioners - Staff Report**

**Meeting Date:** October 18, 2016  
**Submitting Department:** Public Health

**Presenter:** Jodie Pond  
**Subject:** Consideration of a competitive grant application to the Jackson Hole Community Foundation for the funding of the Network of Care web hosting site for the purpose of a local community wide social services resource guide and public health indicator data site.

---

---

**Statement / Purpose:** To consider a competitive grant application to the Jackson Hole Community Foundation.

**Background / Description (Pros & Cons):** Healthy Teton County (HTC) is a community coalition, led by Teton County Public Health and St. John's Medical Center, which focuses on developing a "vibrant community where opportunities for excellent health are available to all." HTC proposes to address Teton County's primary health need as identified in the 2015 Community Health Needs Assessment (CHNA), Access to Health Services, through the implementation of an online platform that will centralize all local health data and provide an up-to-date health resource and social services directory.

**Stakeholder Analysis & Involvement:** We will develop a customized tool that is pertinent and useful for our community by soliciting input from community partners throughout the 2-month implementation phase of this resource; HTC's Access to Health Services Action Group along with Teton County Systems of Care have both expressed support for this initiative.

**Fiscal Impact:** Funds for the ongoing subscription will be requested in the annual budget for Teton County Public Health Department. The annual subscription rate is \$6,000.00. The grant application will request funding for the customization of the site and one year subscription for a total request of \$11,000.00.

**Staff Impact:** Staff will write and submit the grant application and will oversee the implementation of the project.

**Legal Review:** There are no legal documents to review at this time. If the grant application is successful, legal review will be obtained for any contract related to the project.

**Staff Input / Recommendation:** Public Health Staff recommends approval to apply for the competitive grant application to the Jackson Hole Community Foundation.

**Attachments:** None.

**Suggested Motion:** I move to approve the competitive grant application to the Jackson Hole Community Foundation for the Network of Care web hosting site.
