

Zone Comparison Table: R-2 Zoning District

	Proposed Rural 2 (R-2) Zone	Existing Rural-County (R-TC) Zone	Existing Neighborhood Conservation-County (NC-TC) Zone	Existing Business Conservation-County (BC-TC) Zone
How much can I build? (Bulk/Form)				
Floor Area				
How to Calculate	Floor area potential is the same, regardless of the size of your property.	Floor area potential is based on the gross (total) acreage of your property minus those areas that are not developable. In order to calculate your potential, you will need to use a survey or the GIS to estimate your Base Site Area. Base Site Area (BSA) = Total Acres – Acres in road easements, water, previously committed open space and 50% of land in steep slopes		
Floor Area Ratio (max)	10,000 sf	Residential Lots >0.5 ac: (BSA-0.5)(0.032)(43,560)+4,596 Other Uses: 0.007 BSA x FAR = Allowed Floor Area	Residential Lots >0.5 ac: (BSA-0.5)(0.032)(43,560)+4,596 Other Uses: 0.007 BSA x FAR = Allowed Floor Area	Residential Lots >0.5 ac: (BSA-0.5)(0.032)(43,560)+4,596 Other uses: 0.05-0.30 or 20% expansion of existing BSA x FAR = Allowed Floor Area
Site Development				
How to Calculate	Site development potential is based on the gross (total) acreage of your property. No survey is required to calculate your potential.	Site Development potential is based on the gross (total) acreage of your property minus those areas that are not developable. In order to calculate your potential, you will need to use a survey or the GIS to estimate your Adjusted Site Area. Adjusted Site Area (ASA) = Total Acres – Acres in vehicular easements and water		
Site Development Ratio (max)	GSA(.04) + 14,720 sf	Residential Lots 3-35ac: (ASA-3)(0.040344)(43,560)+19,994 Other uses: 0.05 ASA x Site Dvlpt Ratio = Allowed Site Dvlpt	Residential Lots 3-35ac: (ASA-3)(0.040344)(43,560)+19,994 Other uses: 0.05 ASA x Site Dvlpt Ratio = Allowed Site Dvlpt	Residential Lots 3-35ac: (ASA-3)(0.040344)(43,560)+19,994 Other Uses: 0.70 ASA x Site Dvlpt Ratio = Allowed Site Dvlpt
Scale of a single building (max)	10,000 sf	10,000 sf	10,000 sf	Residential: 10,000 sf Non-res: 6,000 sf (ag exempt)
Height (max)	30'	Residential: 30' Other uses: 35'	Residential: 30' Other uses: 40'	Residential: 30' Other uses: 26'
Where can I build? (Location)				
Site Development Location				
Natural Resource Setbacks	Not affected by this amendment			
NRO/SRO	Not affected by this amendment			
Street Setback (min)	25'	½ the structural setback	½ the structural setback for 40% of lineal lot frontage; structural setback for 60% of lineal lot frontage	½ the structural setback for 40% of lineal lot frontage; structural setback for 60% of lineal lot frontage
Non-Street Setback (min)	5'	½ the structural setback	½ the structural setback	½ the structural setback
Steep Slope Development Prohibited	> 25%	> 25%	> 30%	> 25%
Structure Location				
Street Setback (min)	25'	50' (lots > 1ac)	50' (lots > 3ac)	Residential: 25' (lots < 3ac) 50' (lots > 3ac) Non-residential: 20'
Non-Street Setback (min)	10'	Rear (lots > 1ac): 40' Side (lots > 1 ac): 30'	Rear (lots > 1ac): 40' Side (lots > 1 ac): 30'	Residential: Rear (lots < 3 ac): 25' Side (lots < 3ac): 10' Rear (lots > 3ac): 40' Side (lots > 3ac): 30' Nonresidential: Rear: 20' Side: 10'
What can I do? (Uses)				
Changes to the Use Standards	<p>Consolidation of Uses—Certain like uses with similar standards were consolidated to simplify the regulations</p> <ul style="list-style-type: none"> Golf Course, Downhill Ski Area, and Outdoor Recreation were consolidated into Outdoor Recreation Airport, Heliport, Landing Strip, Balloon Operations and Helicopter Tree Removal were consolidated into Aviation <p>Uses written for certain zones are replaced with general uses and zone-specific standards</p> <ul style="list-style-type: none"> Agricultural Employee Housing replaced with zone-specific ARU standards for residential units accessory to agriculture Cottage Industry replaced with Light Industry and Heavy Retail/Service allowed accessory to Agriculture with standards specific to the zone Reception/Event split—outdoor receptions are now an Outdoor Recreation use with zone specific standards; indoor reception halls are an Assembly use
