

# A Diverse and Balanced Community

## I Agree!

Please write a short explanation if you support statements below.

## Guiding Principle:

*The intent of the Comprehensive Plan is to create conditions for a sustainable community that reflects the unique small-town, Western commercial character of Jackson, and the outdoor recreational opportunities of Teton County. Outdoor-based recreation and tourism will remain the community's economic backbone, but the community will seek to sustain a vibrant, year-round, diverse and sustainable economy. Future actions will recognize the changing trends in the local, regional, national, and global economy that are affecting the west and the lifestyle choices of its current and future residents.*

## Objectives:

### Balance of growth among residential, commercial, and resort development uses

- Work to ensure that no one sector of our community over-dominates

### Support maintenance and expansion of locally-owned businesses

- Take steps to enhance the vitality of businesses that are unique to Jackson, that enhance our sense of community and identity

### Strike a balance between our environment, workforce housing needs, transportation systems, community vitality, and growth

- Develop and implement better indicators of sustainability for decision-making at the community level that balances attention to economy, the environment, and community

## I Disagree!
