

Jackson Hole Community Pathways

5-Year County Pathways Vision

North Fish Creek Study Area

Note: This corridor is an important wildlife management area and many properties carry conservation easements. Any proposed facility in this area would require cooperation with landowners to grant easements for public access and compliance with conservation easements. A detailed corridor analysis will be required to address wildlife concerns and overall project feasibility.

Any pathways shown in GTNP are the jurisdiction of the National Park Service

- Teton County Map Legend**
- Existing Shared-Use Community Pathway - paved trail for non-motorized travel (may include separated equestrian trail)
 - Potential Shared-Use Community Pathway - paved trail for non-motorized travel (may include separated equestrian trail)
