Course Descriptions

Becoming a Love & Logic Parent:

The primary goal is to give parents practical strategies for reducing behavior problems, increasing motivation, and building assets that contribute to life long responsibility and resiliency. The course is four to six sessions.

Nurturing Parenting: The program is proven to increase levels of family empathy, self-worth, personal power, and positive discipline by promoting positive interactions between parents and children. These programs are typically ten to fifteen months in length and incorporate children's groups as well as parent groups.

Babysitting is available for most programs.
